We are an ISO 9001:2015 Certified organization engaged in manufacturing & export of brass, copper & aluminium fittings for air conditioning & refrigeration industry. We act as one stop solution for precise metal fittings & hardware. Our range is appreciated for it's high performance & reliability.

Our products suits to various industrial sectors like electrical, electronics, automobiles & faucets. Over the years we have served the leading OEM's in the global market.

We have expertise in various machining operations like turning, milling & drilling etc. We are specialised in manufacturing brass & aluminium refrigerant distributors.

Shree Deep Precision prides itself in delivering high quality products at competitive prices on time. We are a dynamic organization which is looking to evolve and grow in the competitive market.

We are eager to learn & innovate to improve our services & quality.

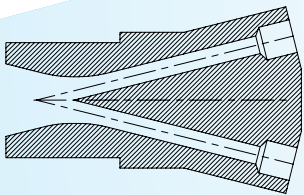

Our Range of Products

Refrigerant Distributors

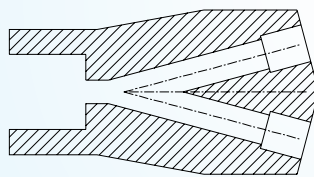

Application: The refrigerant distributor is connected to the outlet of thermostatic expansion valve (TEV). The outlet of the distributor is machined to accept tubing which connects the distributor to each circuit of the evaporator coil. The refrigerant distributor equally distributes the Refrigerant flow from thermostatic expansion valve (TEV) into each circuit of evaporator coil.
